## Office Memorandum • United States Government

subject: Weekly Report, 10 - 17 July 1956  1. The OTR Registrar called about providing tutorial tradecraft training for an FE/PP person. In light of the fact that is still on active military duty and will be conducting the two-week tradecraft coverage in Operations Support upon his return 23 July, and will then be concerned with leaving the country, it was recommended that the Operations School be called upon to provide this training.  5X1  2. Mr. asked if we could accommodate some 16 JOTs during the first week of Operations Support as part-time auditors. They would be present for lectures when not otherwise occupied in testing, processing or interviews. The lectures would serve to acquain them with some agency terminology during this interim waiting week. However, due to the unfavorable effect first week auditors have on the rest of the class (see Weekly Report, 6 June) and the impossibility of adequately segregating students due to a small class room, this plan was rejected.
